Battle of the Wilderness, 1862.
Impeachment of Lord Bacon, 1621.

LAND AND WAGES.

There is really enough land not under cultivation to support several times the present population of the United States, and the papers which forget this fact at present would surely remember it if such a theory as Henry George's were under discussion. The assumption that the United States is overpopulated is a self-evident absurdity. — *Galveston News.*

The point that Henry George makes that our land laws discriminate in favor of the rich, is one of the most ridiculous statements that could be invented by an unfair mind. People are not poor in America, because certain large tracts of land are owned by private parties and by syndicates. Neither are wages low in some localities because every poor person cannot own a farm. There is land enough in the United States to feed the world, but of course it will never be required to do that; and there will always be moderate wages for a certain class of laborers who, by unhappy circumstances, are not in a condition of intellect to earn more than the income of a day laborer. This is a condition that will always confront the people of this country.

It is useless to talk about stimulating the demand for the common laborers above that which exists under the present condition of things in the United States. A workman of energy, pluck, ambition and with some brains, will not remain a humble laborer very long. There is room for him in higher sphere of labor and usefulness. But a man who can see nothing beyond a life of a dollar or a dollar and a half a day, will never feel and will never share very much of the prosperity of the country. It is of this class that Henry George wants to help to good farms, to good positions, and to good houses and lots. He wants them to get possession of these things without earning them.

The common laborers of the United States, and very many mechanics, will always have to contend with that great evil—the immigration of tens of thousands every year of very poor people from Europe. They come here in the worst form of financial condition. They are not only poor, but many of them are not able to rise to the dignity of American citizenship. They fill the cities. They want something to do. They will work for "starvation wages," a rate for which no American can afford to work and build up a home. This class of immigrants are multiplying by the thousands every year, and as a matter of course they cut down wages. The land laws have nothing to do with the present condition of wages among the poor people. The fault lies in the fact that the country is over-run with European emigrants.

TREE CULTURE.

The state of Nebraska first inaugurated arbor day in 1872. Since that date it is estimated that 650,000,000 trees have been planted in Nebraska and twenty-four other states have adopted the custom. People are just beginning to understand the importance of tree culture. They have too long neglected this important industry even in the older states where the wood-lands of years ago are simply fields of stumps.

A statement is made that more than fifteen million railway cross ties are used annually in the United States. Can anyone guess how many acres of wood-land it would require to furnish this many ties? The estimate has been made by competent judges, and to supply the railways with cross ties requires the destruction of nearly two hundred thousand acres of forest land annually!

This is not an exaggerated statement, but one based upon positive knowledge. When this fact is taken into account the necessity for more tree planting will be clearly seen. If tree culture is not engaged in to a considerable extent, the day will come, and it will not long delay its coming, when the most desirable and thickly portions of the country will be completely tree-less. The present rate of tree destruction cannot go on, with no effort to replace the forests, without producing a tree famine.

THE OFFICIAL CANVASS.

The official statement of the votes cast for associate justice of the supreme court of the state has been published, and from it the interesting fact is obtained that Judge Cassoday received 210,839 votes—the largest vote ever cast in Wisconsin for one man. The total vote in the state was 211,111, making the casting vote told only 212. This approaches a unanimity of sentiment in regard to the judiciary that does honor to the voters of Wisconsin as well as forms a fitting compliment to Judge Cassoday.

The judge is in all respects worthy of the honor thus conferred upon him. He is one of the many monuments of our civilization—an upright judge. He has dignified the supreme bench by his legal learning and his nobility of character, and his friends everywhere will heartily rejoice that his re-election to the high and responsible judicial office has been unanimous.

There are a good many complaints concerning the manner in which the centennial ball was conducted in New York. There should be no disappointments or complaints. If the arrangements were not in full keeping with manly and womanly intelligence and sobriety, the New Yorkers are to blame. Decent people ought to understand that a ball of that magnitude, where all sorts of characters were admitted, and where champagne

was freely used, could not result otherwise than disgraceful. Drunken people have no sense, no matter whether they be on the street or in the centennial ball room in New York. The centennial ball arrangements, the dance and the supper and the terms of admission, were simply a desecration of the day. Mr. Ward McAllister may shake hands with himself when he contemplates the interesting fact that he was kicked off the programme.

The Cincinnati Commercial still publishes the item started last week that "General Clinton B. Fisk, late candidate for president on the prohibition ticket," has reached the conclusion that political prohibition is a stumbling block to temperance reform, and he is again a republican. We notice that the prohibition papers deny that the general ever made such a statement. If General Fisk has ordinarily good judgment and can read the signs of the times, it ought not to take him long to make up his mind to become a republican.

The Chicago Herald says that the appointment of Robert P. Porter as superintendent of the census means "a bogus enumeration." On the other hand, the Atlantic Constitution says that with Mr. Porter in charge the country may be satisfied that, in so far as is in his power, the census will be taken with regard to partisan bias. Intelligent democrats can't feel very proud of the character of their leading papers. There is some lying going on somewhere.

The Mason (Georgia) Telegraph takes time to remark that "Postmaster General Wanamaker is entitled to the thanks of the southern people for the promptness with which he granted the requests of the postmasters at Atlanta and Savannah for permission to close their offices on Memorial day." This was southern memorial day, and by this time our southern friends are beginning to see that this administration is not sectional and partisan, after all their grumbling and gloomy predictions.

The item is going the rounds of the press that Mr. George W. Childs has consented to loan to the Scotch-Irish congress the harp of Thomas Moore, and it will be exhibited at the coming congress in Columbia, Tennessee.

WISCONSIN UNITED WORKMEN.

RACINE, Wis., May 3.—The Grand Lodge session of the Ancient Order of United Workmen closed after electing the following officers: Grand master workman, C. D. Tillinghast; grand foreman, H. H. Zahn; Milwaukee, grand overseer, K. Dunn; Elroy, grand recorder, H. C. Heath; LaCrosse, grand receiver, J. H. Marston; Appleton, grand guide, C. B. Curtis; Fort Atkinson, grand watchman, J. C. Halsem; Hudson, grand treasurer, M. T. Moore; LaCrosse, state medical examiner, D. C. Beebe; Sparta, representatives to Supreme Lodge, W. A. Walker, Manitowish, R. J. Flint, Menomonie, and T. H. Hornick, Oshkosh. The next session will be at Janesville, May, 1890.

CONSPIRATORS SENTENCED.

GENEVA, Ill., May 3.—Judge Kallum refused to grant a new trial to the "Q" conspirators, Broderick and Golding, and sentenced them—Broderick to one year in the penitentiary and Golding to a fine of \$100 and his share of the costs, which will amount to a little over \$200. Golding's fine was reduced from \$500 to \$100 and his share of the costs, and it was feared that if he should be released he would schedule out and cause trouble for the state. Broderick asked for sixty days in which to file a bill of exceptions, which was granted.

Casualties at a Philadelphia Fire. PHILADELPHIA, Pa., May 3.—During a fire here yesterday in a four-story building attached to the Catholic college on East Chelton avenue, near Magdalen street, Ignatius Kemmerle, 81 years old, fell from the third story to the basement with a falling door and died from suffocation. His brother Michael, 70 years old, jumped from the third floor to the ground and sustained severe though not necessarily fatal injuries.

Harriet Beecher Stowe Much Better. HARTFORD, Conn., May 3.—The health of Mrs. Harriet Beecher Stowe has improved so much that a very comfortable summer is anticipated for her. Mrs. Stowe's mental activity has not been so great during the winter as usual. Still she has kept pace with events, and has been much interested in the great continental celebration in New York.

ON TRIAL FOR HIS LIFE.

BOSTON, Ill., May 2.—The case of Charles Williams, for murder, was called in the Circuit court yesterday and the jury was completed to-day. The prosecution and defense have made their opening statements and the taking of testimony is now in progress. Williams is the only survivor of a horrible fight which occurred at Thompsonville, Ill., last October, in which Williams, his brothers John and Jordan were killed, and it is for the murder of the latter Williams is indicted. The case is causing a great deal of interest here.

Long Time Between Drinks in Danville. DANVILLE, Ill., May 4.—The saloons in Danville are closed, the city council not having agreed on the amount of license. It is understood that five members are for high license and four for a \$600 license. One alderman was absent. An adjournment was taken to Thursday night and until then Danville will go dry.

MEXICO'S FINANCES.

CITY OF MEXICO, May 3.—The government announces that the banking house of Bleicherbach has demanded their balance, \$2,900,000, of the loan on which it had an option. The minister of finance has issued a circular citing the above as an indication of the flourishing condition of the finances and showing a reduction of the national debt.

Mrs. Gurley Taken to Jail.

JOLIET, Ill., May 3.—Mrs. Josie Gurley, the kidnaper of Annie Redmond, was brought to Joliet Deputy Sheriff Graves and placed behind the bars to serve the five years' sentence imposed upon her for stealing the child. Mrs. Gurley is the first woman ever sent to Joliet for kidnapping.

Capture of a Despicable Thief.

ASHLAND, Wis., May 3.—Martin Wells, a mine laborer, who robbed his room mate of \$1,600 Saturday night at Ironwood, has been captured at High Bridge. He had all the money, save \$100, still in his possession.

Peer's Hosp is the most elegant toilet adjunct.

ADVISE TO SMOKERS. Mrs. Winkler's Broomstick Brand should always be used for children bedding. It soothes the child, softens the gums, allays all pain, cures colds, cures whooping cough, and is the best remedy for all ailments. \$5 a bottle.

PARNELL AGAIN TESTIFIES

HE READS EXTRACTS FROM FORMER SPEECHES MADE.

England Will Side With America on the Samoan Question—News in General.

LONDON, May 3.—In the cross-examination of Mr. Parnell Thursday he admitted that Condon was connected with the Manchester murders. Condon was chairman of the reception committee at Washington. Witness had always repudiated the dynamite and physical force party in America, and denounced them in the House of Commons. He was not aware that the Cincinnati Commercial Gazette reported verbatim the speech he made at Cincinnati in which he is said to have referred to the overthrow of the last link between Great Britain and Ireland, or that its report was like that in the Irish World.

Mr. Parnell admitted that he had not found fault with the past action of the Fenians. He quoted from his speeches and his manifesto of 1881 denouncing outrages and unconstitutional action by Irishmen. Mr. Parnell said he was not at all buying out the landlords in Ireland and making the tenants owners of the land.

The cross-examination of Mr. Parnell proceeded through a mass of detail and was aimed to connect him with the Fenians and also to show that he must have known of the plots to commit murder. Nothing, however, was elicited from the witness to show that he was in any way connected with the Fenians for that he had any knowledge of murderous conspiracies.

Pressed by counsel as to whether he had ever denounced outrages Mr. Parnell read extracts from speeches delivered by him in 1879 such as: "Let us remain with the law and constitution." "I hope the people will not be tempted to initiate the violence and illegal attitude of the government." "The league is perfectly peaceable and constitutional and there is nothing behind it."

Mr. Parnell further said that in 1880 he denounced the shooting of agents as unnecessary and prejudicial where there was a suitable league organization, but admitted that such denunciation was insufficient to stop such outrages. He denied that he was responsible for the articles which appeared in United Ireland and said that Mr. O'Brien had supreme control of that paper.

YELLOW FEVER ON BOARD.

Three Fatal Cases on the Steamship Berlin—Three Deaths on the Weser. LONDON, May 3.—The steamship Berlin, from Rio Janeiro, arrived at Bremen to-day with yellow fever on board. Three of her passengers had died of the disease during the voyage and a score are down, some of whom can not recover. The vessel has been put in strict quarantine.

BERLIN, May 3.—The North German Lloyd's steamship Weser, which sailed from Baltimore for this port April 17, has arrived here with yellow fever on board. Several of the officers and twenty-eight of the crew are ill, and three men died on the voyage.

England Will Side With America. BERLIN, May 3.—It is understood that England, in the interests of the Australian colonies, will on many points support the American proposals in regard to Samoa. The German government will be appointed vice-king of Samoa, but Germany will decline to allow Matusa any official position. The Emperor has invited the delegates to the Samoan conference to dine at Potsdam on Monday.

King William's Power Restored. THE HAGUE, May 3.—Owing to the improvement in the health of the King of Holland the Dutch parliament has restored his power. The announcement was received with cheers. Parliament sent a telegram to the King congratulating him upon the favorable turn in his disease. The Duke of Nassau, now regent of Luxemburg, will retire to Tauxem.

Notes. It is stated that the King of Wurtemberg insists upon the return of Baron Savoy, his former American adviser. It is believed that an intrigue is on foot for the dismissal of Prime Minister von Mittnacht.

The American commissioners to the Samoan conference were presented to Emperor William at Potsdam. The commissioners were delighted with their reception.

The sentences of imprisonment passed upon Messrs. John O'Connor, T. J. Condon and Dr. Tanner, members of Parliament, and Father Manning, have been confirmed.

The consular body in London has presented Mr. Waller, the retiring American consul-general, with a gold mounted cane and a gold mounted umbrella.

The Catholic congress at Vienna closed with cheers for the Pope and for Emperor Francis Joseph.

Gen. Boulanger has summoned a council of his supporters to meet in London May 16.

THEIR BLOODY FIGHT.

Murray and Lyman Meet in the Prize Ring Early This Morning. NEW YORK, May 3.—The Lyman-Murray fight for the 100 pound championship of America came off this morning at a hotel in East New York, and after thirty-nine rounds of hard and bloody fighting Murray was declared the victor.

Twenty persons witnessed the fight. The remarkable feature was the pluck of Lyman, who fought the last three rounds entirely blind, and only gave up at last at the bidding of his seconds. Murray was the stronger man, and had he forced the fighting the battle would have been more quickly won. The stakes were for \$250 a side and a purse of \$500.

There Will Be No Strike.

MASSILLON, Ohio, May 3.—Wednesday the summer rate paid to miners for getting out coal went into effect. The rate is 7 1/2 cents per ton. It was feared that they would not accept, and a general strike was apprehended, but President McBride of the Miners' association has advised the men to accept, and they are all working on the new rate. Three owners have agreed to pay 80 cents if the rest will.

Resigned the Editorship.

NEW YORK, May 3.—Robert P. Porter, the newly appointed superintendent of the census, has resigned the editorship of the Morning Press of this city. The fact is not announced by that paper, but, for the first time, to day Mr. Porter's name does not appear at the head of the editorial columns.

Found Dead in a Hog Pen.

LEWISTON, Ill., May 3.—Ellis Grisby, an old soldier of civil war, was found dead in a hog pen this morning. A coroner's jury rendered a verdict of apoplexy. Grisby had lately received a back pension. Foul play is suspected.

The value of a remedy should be estimated by its curative properties.

According to this standard, Ayer's Sarsaparilla is the best and most economical blood medicine in the market, because the most pure and concentrated. Price \$1. Worth \$5 a bottle.

A CARD.

All who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc., will find a relief and cure in Ayer's Sarsaparilla. It is the best medicine for all such ailments. Send a self-addressed envelope to the publisher, J. C. Ayer & Co., Lowell, Mass.

INCENDIARY FIRE AT PEORIA.

The Peoria Fuel Company Suffer a Loss of \$75,000—Other Fires.

PEORIA, Ill., May 3.—The Peoria Fuel company suffered a loss of property amounting to \$75,000 by an incendiary fire Thursday. Four barns on the bluff were also destroyed by an incendiary fire in the afternoon.

VINCENNES, Ind., May 3.—Thursday night fire broke out in the dry-room of S. Koxmiller's brick kiln and spread to the machinery department. In a few minutes the whole place was ablaze. The machinery is a total wreck. Loss \$40,000, partly covered by insurance.

TELLA, Iowa, May 3.—An incendiary fire Tuesday destroyed four buildings of the Garden City Picking company, two carloads of harvesting machinery belonging to Van der Molen Bros., and other goods. Loss \$35,000, insurance unknown.

MONTICELLO, Ill., May 3.—The severe freeze of last night has greatly injured nearly all kinds of small fruit in this vicinity, and it is feared that much corn will have to be replanted.

TESCOLA, Ill., May 3.—Central Illinois was visited last night by a severe freeze. Fruit is badly injured, and young corn is killed on the ground. It is feared that many thousands of acres will have to be replanted. It is very cold and another freeze is expected.

COVINGTON, Ind., May 3.—Most of the small fruit, including grapes and peaches, was destroyed by the frost last night. The peaches are already falling off. It is feared that corn has also been damaged.

FAILURE AT MERIDEN, CONN.

A Malleable Iron Company Goes Under With Liabilities of \$180,000.

MERIDEN, Conn., May 3.—The Meriden Malleable Iron company, one of the big concerns of Meriden, is financially embarrassed, owing to several recent failures of Western houses the company held. The foundries are shut down. The directors and prominent stockholders held a meeting yesterday. The management presented a statement showing liabilities of \$180,000 and assets of \$280,000. The only embarrassment was from a lack of ready cash to meet notes, of which \$12,000 have recently come back unpaid, owing to the failure of heavy creditors. It will probably be decided to reorganize the company and put it on a solid financial basis.

NEW YORK, May 3.—Abner Mellon, formerly wholesale dealer in building supplies at 142 and 144 Worth street, made an assignment to George McKay. He has been liquidating the business since January, 1888, on account of ill-health. At that time he had a stock of \$175,000 and liabilities of \$55,000.

Officers for Indiana Knight Templars.

INDIANAPOLIS, Ind., May 3.—The Grand Commandery Knight Templars adjourned its annual meeting after amending its constitution and code of statutes. Officers were elected as follows: Lionel P. Bacon of Indianapolis, commander; H. H. Lancaster, Lafayette, deputy commander; J. B. Webster, Warsaw, generalissimo; J. A. Manning, Indianapolis, captain general; W. Fred Pettit, Shawnee Mound, president; James B. Safford, Columbus, senior warden; S. S. Johnson, Jeffersonville, junior warden; Joseph W. Smith, Indianapolis, treasurer; William H. Smith, Indianapolis, recorder; Charles W. Slick, Mishawaka, standard bearer; L. E. Smalley, Green Castle, sword bearer; William Hindman, Vincennes, warder; Roger Parry, Indianapolis, captain of the guard.

Probably Killed in Oklahoma.

VINCENNES, Ind., May 3.—Ten days ago Lucian Blaum and Dan Wolf, sons of a wealthy farmer living near Oakton, this county, left for Oklahoma. Nothing was heard of them till yesterday, when Blaum returned and said that he had thought that Wolf had preceded him home. He further said that before they reached the "promised land" Wolf wanted to return, but was prevented upon to go on. When they got there Wolf was displeased with the place and started home, leaving Blaum there. This is the last that was seen of him and it is feared that he was foully dealt with before he recrossed the Oklahoma line. Several telegrams sent to points along his route home revealed no clue to his whereabouts.

The Plummerville Election Frauds.

LITTLE ROCK, Ark., May 3.—In the Federal court to-day Judge U. M. Rose, Col. W. L. Terry, and Mr. John Fletcher, attorney for Charles Reid and James Lucas, who were convicted last Saturday for interfering with an election supervisor at Plummerville, and who are in jail awaiting sentence, filed a motion in arrest of judgment in their case, claiming that the indictment under which the defendants were convicted is insufficient to substantiate the verdict. The argument of the motion was deferred to suit the convenience of the court and counsel.

GASOLINE STOVES.

The Best in the Market.

Call and see them.

A TWO BURNER

S-T-O-V-E

FOR

\$4.00.
